1 Interpretation

1.1 Incorporated definitions

A term which has a defined meaning in the:

- (a) Security Trust Deed;
- (b) Master Trust Deed; or
- (c) Issue Supplement,

has the same meaning when used in this document unless it is expressly defined in this document, in which case the meaning in this document prevails. In the event of any inconsistency between a definition in the Issue Supplement and a definition in the Security Trust Deed or the Master Trust Deed, the definition in the Issue Supplement will prevail.

A term defined in the Security Trust Deed, the Master Trust Deed or the Issue Supplement by reference to a Trust (as defined in the Master Trust Deed) will, when used in this document, be taken to be defined by reference to the Trust (as defined in this document), unless the contrary intention appears.

1.2 Definitions

These meanings apply unless the contrary intention appears:

Adjustment Spread means the adjustment spread as at the Adjustment Spread Fixing Date (which may be a positive or negative value or zero and determined pursuant to a formula or methodology) that is:

- (a) determined as the median of the historical differences between the BBSW Rate and AONIA over a five calendar year period prior to the Adjustment Spread Fixing Date using industry-accepted practices, provided that for so long as the Bloomberg Adjustment Spread is published and determined based on the five year median of the historical differences between the BBSW Rate and AONIA, that adjustment spread will be deemed to be acceptable for the purposes of this paragraph (a); or
- (b) if no such median can be determined in accordance with paragraph (a), set using the method for calculating or determining such adjustment spread determined by the Trust Manager (and agreed to by the Liquidity Facility Provider, acting reasonably) to be appropriate or, if the Trust Manager is unable to determine the quantum of, or a formula or methodology for determining, such adjustment spread (or the Liquidity Facility Provider, acting reasonably, does not agree to the formula or methodology), then as determined by an alternative financial institution (appointed by the Trust Manager (and agreed with the Liquidity Facility Provider, acting reasonably)) acting in good faith and in a commercially reasonable manner.

Adjustment Spread Fixing Date means the first date on which a Permanent Discontinuation Trigger occurs with respect to the BBSW Rate.

Administrator means:

- (a) in respect of the BBSW Rate, ASX Benchmarks Pty Limited (ABN 38 616 075 417);

Bloomberg means Bloomberg Index Services Limited (or a successor provider as approved and/or appointed by ISDA from time to time), as the provider of term adjusted AONIA and the spread.

whether such event results in an increase or a decrease in the relevant amount or cost referred to in clause 12.1 (“Determination”).

When calculating interest in circumstances where the Final Fallback Rate applies, that interest will be calculated on the same basis as if the Applicable Benchmark Rate in effect immediately prior to the application of that Final Fallback Rate remained in effect but with necessary adjustments to substitute all references to that Applicable Benchmark Rate with corresponding references to the Final Fallback Rate.

the Applicable Benchmark Rate taking into account all available information that in good faith it considers relevant, provided that any rate (inclusive of any spreads or adjustments) implemented by central counterparties and / or futures exchanges with representative trade volumes in derivatives or futures referencing that Applicable Benchmark Rate will be deemed to be acceptable for the purposes of this paragraph (a);

- (b) if the Trust Manager is unable or unwilling to determine (or agree with the Liquidity Facility Provider) a reasonable alternative, determined by an alternative financial institution (appointed by the Trust Manager (and agreed with the Liquidity Facility Provider, acting reasonably)) acting in good faith and in a commercially reasonable manner; or
- (c) if and for so long as the Trust Manager is unable to appoint an alternative financial institution or the Liquidity Facility Provider has not agreed to the proposed alternative financial institution, or the appointed alternative financial institution is unable or unwilling to determine a rate in accordance with paragraph (b), which is the last provided or published level of that Applicable Benchmark Rate.

Subject to this document, the Liquidity Facility Provider agrees to provide financial accommodation requested by the Trust Manager under this document.

2.2 Purpose

The Liquidity Facility is only available to be drawn to fund any Liquidity Shortfall.

2.3 Liquidity Advance Request

If, on any Determination Date during the Availability Period, there is a Liquidity Shortfall in respect of that Determination Date, the Trust Manager must, on behalf of the Trustee and in accordance with this document, request that the Liquidity Facility Provider make a Liquidity Advance under the Liquidity Facility on the Payment Date immediately following that Determination Date in accordance with this document and equal to the lesser of:

- (a) that Liquidity Shortfall; and
- (b) the Available Liquidity Amount on that Determination Date.

2.4 Collateral Advance Request

On receipt of a request from the Liquidity Facility Provider under clause 10.1(b) (“Downgrade of Liquidity Facility Provider”), the Trust Manager must request that the Liquidity Facility Provider make a Collateral Advance under the Liquidity Facility equal to the Available Liquidity Amount.

2.5 Liquidity Limit

Despite anything in this document, the Liquidity Facility Provider need not provide financial accommodation under this document if to do so would result in the Liquidity Principal Outstanding and the Collateral Account Balance immediately after the provision of financial accommodation exceeding the Liquidity Limit (after giving effect to any reduction in the Liquidity Limit to occur on that day).

2.6 Termination

The Liquidity Facility will terminate on the earlier of the Liquidity Facility Termination Date and the Liquidity Facility Provider Termination Date.

3 Conditions precedent

3.3 Benefit of the Liquidity Facility Provider

The conditions precedent set out in this clause 3 (“Conditions precedent”) are for the benefit of the Liquidity Facility Provider and any of them may be waived by the Liquidity Facility Provider in its absolute discretion.

4 Liquidity Advances

4.1 Use of Liquidity Facility

If the Trust Manager wants to use the Liquidity Facility to make a Liquidity Advance or a Collateral Advance, it must do so only in accordance with clauses 2.3 (“Liquidity Advance Request”) or clause 2.4 (“Collateral Advance Request”) and it must give a notice to the Liquidity Facility Provider meeting the requirements of clause 4.3 (“Form of Request”).

4.2 Timing of Liquidity Advance

Each Liquidity Advance:

- (a) must be drawn down on a Payment Date; and
- (b) must be credited to the Collection Account and applied only in accordance with clause 5 (“Cashflow Allocation Methodology”) of the Issue Supplement.

4.3 Form of Request

A Request must:

- (a) be in or substantially in the form of Schedule 1; and
- (b) be signed by an Authorised Officer of the Trust Manager.

4.4 Delivery of Liquidity Advance Request

The Trust Manager must deliver to the Liquidity Facility Provider:

- (a) a Liquidity Advance Request not later than 4.00 pm on the relevant Determination Date preceding a Payment Date; or
- (b) a Collateral Advance Request not later than 4.00 pm on the second Business Day before it requires the Collateral Advance,

as the case may be, or such other period as may be agreed between the Trust Manager and the Liquidity Facility Provider.

4.5 Effective

A Request is effective on actual receipt in legible form by the Liquidity Facility Provider and is irrevocable.

4.6 Agreement to make Liquidity Advance and Collateral Advance

Subject to this document, the Liquidity Facility Provider agrees:

- (a) to deposit in the Collection Account the amount of any Liquidity Advance in immediately available funds by 11.30am on the relevant Payment Date; and
- (b) to deposit in the Collateral Account the amount of any Collateral Advance in immediately available funds by 11.30am on the relevant day that the Trust Manager requires the Collateral Advance.

5 Liquidity Interest Periods

5.1 Initial interest periods

The first Liquidity Interest Period in respect of a Liquidity Advance commences on (and includes) its Drawdown Date and ends on (but excludes) the next Payment Date. Each subsequent Liquidity Interest Period will commence on (and include) a Payment Date and end on (but exclude) the next Payment Date.

5.2 Final interest period

A Liquidity Interest Period in respect of a Liquidity Advance which would otherwise end after the termination date of the Trust ends on (but excludes) that termination date.

6 Interest

6.1 Payment of Interest

The Trustee agrees to pay to the Liquidity Facility Provider interest on the daily balance of each Liquidity Advance from and including its Drawdown Date until the Liquidity Advance is repaid in full. On each Payment Date, the Trustee will pay to the Liquidity Facility Provider accrued interest on each Liquidity Advance. Without prejudice to any other rights of the Liquidity Facility Provider, if, on any Payment Date, all amounts due in accordance with this clause 6.1 ("Payment of Interest") are not paid in full, on each following Payment Date the Trustee must pay so much of the amounts as are available for that purpose in accordance with the Issue Supplement until such amounts are paid in full.

6.2 Calculation of Interest

Interest is to be calculated for each Liquidity Interest Period. Interest accrues from day to day and is to be calculated on actual days elapsed and a 365 day year. Interest is payable in arrears on each Payment Date in the manner contemplated by clause 6.1 ("Payment of Interest"). The rate of interest paid to the Liquidity Facility Provider in respect of a Liquidity Interest Period is the sum of the BBSW Rate as determined on the Liquidity Interest Determination Date in respect of that Liquidity Interest Period (rounded to 4 decimal places) and 1.50% per annum (or such other rate as the Trust Manager and the Liquidity Facility Provider may agree from time to time, provided that a Rating Notification has been provided) ("**Liquidity Interest Rate**").

6.3 Interest on overdue amounts

- (a) If any payment by the Trustee on a Payment Date under clause 6.1 ("Payment of Interest") is insufficient to pay the full amount of accrued interest on each Liquidity Advance and any other interest due and payable under clause 6.3(b) ("Interest on overdue amounts") up to the close of the Liquidity Interest Period just ended, such unpaid interest will itself capitalise and bear interest in accordance with this clause 6 ("Interest").
- (b) The Trustee agrees to pay interest on any amount payable by it under this document (including without limitation on any unpaid interest) from when it becomes due for payment during the period that it remains unpaid. Interest is payable at the rate set out in clause 6.2 ("Calculation of Interest"), as if the amount is a Liquidity Advance having successive Liquidity Interest Periods calculated in accordance with clause 5 ("Liquidity Interest Periods"). The first Liquidity Interest Period commences on the day when the outstanding amount becomes due for payment and each subsequent Liquidity Interest Period commences on the day when the preceding Liquidity Interest Period expires.

6.4 Obligation unaffected

The Trustee's obligation to pay any amount under this document on the date it becomes due for payment is not affected by clause 6.3 ("Interest on overdue amounts").

6.5 Interest following judgment or order

If a liability under this document becomes merged in a judgment or order, then the Trustee agrees to pay interest to the Liquidity Facility Provider on the amount of that liability as an independent obligation. This interest accrues from the date the liability becomes due for payment both before and after the judgment or order until it is paid, at a rate that is the higher of the rate payable under the judgment or order and the rate referred to in clause 6.3(b) ("Interest on overdue amounts").

6.6 Temporary Disruption Fallback

Subject to clause 6.7 ("Permanent Discontinuation Fallback"), if a Temporary Disruption Trigger occurs in respect of an Applicable Benchmark Rate, the rate for any day for which that Temporary Disruption Trigger is continuing and that Applicable Benchmark Rate is required will be the rate determined in accordance with the Temporary Disruption Fallback for that Applicable Benchmark Rate.

6.7 Permanent Discontinuation Fallback

If a Permanent Discontinuation Trigger occurs in respect of an Applicable Benchmark Rate, the rate for any Liquidity Interest Determination Date which

occurs on or following the applicable Permanent Fallback Effective Date will be the Fallback Rate determined in accordance with the Permanent Discontinuation Fallback for that Applicable Benchmark Rate.

7 Repayment of Liquidity Advances

7.1 Repayment of Liquidity Advances

Subject to clause 7.3 (“Repayment on Termination Date”), on each Payment Date, the Trustee will repay so much of the Liquidity Principal Outstanding under all Liquidity Advances as there are funds available for this purpose in accordance with clause 5 (“Cashflow Allocation Methodology”) of the Issue Supplement. If, on any Payment Date, all amounts due in accordance with this clause 7.1 (“Repayment of Liquidity Advances”) are not paid or repaid in full, on each following Payment Date the Trustee will pay or repay so much of the amounts as there are funds available for that purpose in accordance with the Issue Supplement until such amounts are paid or repaid in full.

7.2 Re-Drawing

Amounts repaid pursuant to clause 7.1 (“Repayment of Liquidity Advances”) may be redrawn in accordance with the terms of this document.

7.3 Repayment on Termination Date

Notwithstanding clause 7.1 (“Repayment of Liquidity Advances”), on or before the Liquidity Facility Termination Date, the Trustee must repay:

- (a) the Liquidity Principal Outstanding;
- (b) interest accrued thereon; and
- (c) all other money due but unpaid under this document,

in each case to the extent that amounts are available for that purpose in accordance with the Master Trust Deed and the Issue Supplement.

If all amounts due in accordance with this clause 7.3 (“Repayment on Termination Date”) are not paid or repaid in full on or before the Liquidity Facility Termination Date, the Trustee will repay so much of such amounts on succeeding Payment Dates as is available for that purpose in accordance with the Master Trust Deed and the Issue Supplement until all such amounts are paid or repaid in full and, in any event, all such amounts must be paid or repaid in full by the Maturity Date (as defined in the Conditions) (and for the avoidance of doubt, the Liquidity Facility Provider will continue to be a “Liquidity Facility Provider” for the purposes of the Issue Supplement until all such amounts are paid or repaid in full).

8 Availability Fee

The Trustee will pay to the Liquidity Facility Provider an availability fee of 1.35% per annum on the then un-utilised portion of the Liquidity Limit.

The fee will be:

- (a) paid in respect of each Availability Fee Period;

- (b) calculated and accrue daily from the first day of the Availability Fee Period on the basis of a 365 day year; and
- (c) paid monthly in arrears on each Payment Date in respect of the immediately preceding Availability Fee Period in accordance with the Issue Supplement.

The availability fee payable under this clause 8 (“Availability Fee”) may be varied from time to time by written agreement between the Trust Manager and the Liquidity Facility Provider (and notified to the Trustee) provided that a Rating Notification has been provided.

9 Cancellation or reduction of the Liquidity Facility

9.1 Cancellation

The Trustee must on the direction of the Trust Manager cancel the Liquidity Facility by written notice to the Liquidity Facility Provider provided that a Rating Notification has been given in respect of the cancellation.

9.2 Reduction of Liquidity Limit

The Trustee must on the direction of the Trust Manager reduce the Liquidity Limit in whole or in part by written notice to the Liquidity Facility Provider if a Rating Notification has been provided in respect of such reduction.

9.3 When notices effective

A notice given by the Trustee pursuant to either clause 9.1 (“Cancellation”) or 9.2 (“Reduction of Liquidity Limit”) will be effective on the day which is 3 Business Days after receipt by the Liquidity Facility Provider (or such other period agreed between the Trustee, the Trust Manager and the Liquidity Facility Provider).

10 Downgrade of Liquidity Facility Provider

10.1 Downgrade

If at any time (for so long as any Notes (other than any Class G Notes) are outstanding) the Liquidity Facility Provider does not have the Required Liquidity Rating, the Liquidity Facility Provider must within 14 calendar days (or such longer period as may be agreed by the Trust Manager and the Liquidity Facility Provider and provided a Rating Notification has been given in respect of that longer period) of such downgrade do one of the following (as determined by the Liquidity Facility Provider in its discretion):

- (a) procure a Replacement Liquidity Facility;
- (b) request the Trust Manager to make a Collateral Advance Request for an amount equal to the Available Liquidity Amount; or
- (c) implement such other structural changes so that the downgrade of the Liquidity Facility Provider does not have an Adverse Rating Effect.

10.2 Variation

Notwithstanding that the Liquidity Facility Provider has elected to satisfy its obligations pursuant to clause 10.1 (“Downgrade”) in a particular manner, it may subsequently and from time to time vary the manner in which it satisfies its

obligations pursuant to clause 10.1 (“Downgrade”), provided that one of paragraphs (a), (b) and (c) of clause 10.1 (“Downgrade”) is satisfied at all relevant times.

11 Collateral Advance

11.1 Collateral Account

Prior to the making of a Collateral Advance Request, the Trustee must (as soon as practicable after being so directed by the Trust Manager) establish and maintain the Collateral Account.

11.2 New Collateral Account

If at any time the entity holding the Collateral Account ceases to be an Eligible Bank or to otherwise satisfy the requirements of any Designated Rating Agency, the Trust Manager must direct the Trustee to, and the Trustee must within 60 days following such event (or such longer period as may be agreed with the Trust Manager and the Liquidity Facility Provider, provided that a Rating Notification has been provided (for the avoidance of doubt, the Trustee is under no obligation to monitor whether a Rating Notification has been provided)):

- (a) establish a new Collateral Account in the name of the Trustee with an Eligible Bank; and
- (b) transfer the balance of the existing Collateral Account to the new Collateral Account.

11.3 Conditions to Collateral Account

The Trust Manager and the Liquidity Facility Provider will ensure that the initial Collateral Account and any new Collateral Account must be established on terms such that:

- (a) the Eligible Bank with which the Collateral Account is maintained will have no right of set-off, combination of accounts, flawed deposit or other Encumbrance over the Collateral Account; and
- (b) the terms of the Collateral Account may not be varied in any way without the prior written consent of the Liquidity Facility Provider and provided that a Rating Notification has been provided.

11.4 Liquidity Advance

(a) If, on any Determination Date after a Collateral Advance has been made, the Trust Manager would, but for the fact that the Liquidity Facility has been fully drawn, be required to request a Liquidity Advance in accordance with clause 5.6 (“Liquidity Draw”) of the Issue Supplement (and the Liquidity Facility Provider would, but for the fact that the Liquidity Facility has been fully drawn and/or the Availability Period has expired, be required to provide that Liquidity Advance), the Trust Manager must direct the Trustee to transfer from the Collateral Account into the Collection Account an amount equal to the lesser of:

- (i) the Liquidity Advance; and
- (ii) the Collateral Account Balance,

by no later than 11.30 am on the immediately following Payment Date.

- (b) Any withdrawal from the Collateral Account in accordance with clause 11.4(a) above will be deemed to be a Liquidity Advance.
- (c) The aggregate amount of the Collateral Advances outstanding will be:
 - (i) reduced by the amount of any deemed Liquidity Advances under clause 11.4(b) and any repayment or prepayment of all or any part of the Collateral Advances in accordance with this document and the Issue Supplement; and
 - (ii) increased by the amount of any deemed Collateral Advances under clause 11.5 (“Repayment of Liquidity Advances”).

11.5 Repayment of Liquidity Advances

At the direction of the Trust Manager, the Trustee must deposit into the Collateral Account an amount equal to any amount which the Trustee subsequently repays in respect of any Liquidity Advance (other than any interest or fees) made by the Liquidity Facility Provider under clause 11.4 (“Liquidity Advance”) and such payment will be deemed to be a Collateral Advance.

11.6 Withdrawal from accounts

The Trustee may only make withdrawals from the Collateral Account if directed to do so by the Trust Manager, and then only for the following purposes:

- (a) to fund a Liquidity Advance in accordance with clause 11.4 (“Liquidity Advance”);
- (b) to transfer the credit balance of the existing Collateral Account to a new Collateral Account in accordance with clause 11.2 (“New Collateral Account”);
- (c) to withdraw any amount which has been incorrectly deposited into the Collateral Account;
- (d) to repay part or all (as applicable) of the Collateral Account Balance to the Liquidity Facility Provider in accordance with clause 11.7 (“Excess collateral”) or clause 11.8 (“Payment to the Liquidity Facility Provider”);
- (e) to pay interest or other amounts to the Liquidity Facility Provider in accordance with clause 11.9 (“Interest and other returns”);
- (f) to pay bank accounts debit tax or other similar taxes payable in respect of the Collateral Account; and
- (g) at the direction of the Trust Manager and with the approval of the Liquidity Facility Provider, to invest in Authorised Investments which mature no later than the next Payment Date provided that all amounts received by the Trustee on that maturity must be credited to the Collateral Account.

11.7 Excess collateral

If on any Determination Date the Collateral Account Balance exceeds an amount equal to:

- (a) the Liquidity Limit on that day; less
- (b) the Liquidity Principal Outstanding,

the Trust Manager must on that Determination Date direct the Trustee to, and the Trustee must following receipt of that direction, repay to the Liquidity Facility Provider from the Collateral Account the amount of that excess within 1 Business Day of such direction.

11.8 Payment to the Liquidity Facility Provider

If at any time after a Collateral Advance has been made:

- (a) the Liquidity Facility Provider obtains the Required Liquidity Rating (or, if the credit rating of the Liquidity Facility Provider continues to be less than the Required Liquidity Rating, but the Trust Manager determines that it may give a direction under this clause 11.8 and it has provided a Rating Notification in respect of that direction);
- (b) the Liquidity Facility Provider complies with clause 10.1(a) or clause 10.1(c) ("Downgrade"); or
- (c) the Liquidity Facility granted under this document is terminated in accordance with this document,

then the Liquidity Facility Provider must notify the Trust Manager of that event and the Trust Manager must then direct the Trustee to, and the Trustee must, repay to the Liquidity Facility Provider the Collateral Account Balance (if any) within 1 Business Day of being so directed by the Trust Manager, such amount to be applied towards repayment of the then outstanding Collateral Advances.

11.9 Interest and other returns

- (a) Subject to clause 11.9(b), all interest or other returns accrued (net of all costs properly incurred by the Trustee in respect of the operation of the Collateral Account under this document) on the Collateral Account Balance, or, without double counting, on any Authorised Investments purchased with the Collateral Account Balance, which have been credited to the Collateral Account must be paid by the Trustee to the Liquidity Facility Provider on each Payment Date.
- (b) If losses are realised on any Authorised Investments purchased with the Collateral Account Balance, no interest or other returns will be paid to the Liquidity Facility Provider under clause 11.9(a) until the aggregate of such interest or other returns exceeds the aggregate of such losses, in which case the Liquidity Facility Provider will be entitled only to receive such excess amount.

11.10 Costs

All reasonable costs incurred by the Trustee or the Trust Manager as a result of any action taken under this clause are payable by the Liquidity Facility Provider.

11.11 Consultation

The Trust Manager must consult with the Liquidity Facility Provider as to the Eligible Bank at which a Collateral Account is to be held prior to opening such an account.

12 Changed costs event

12.1 Determination

Subject to clause 21 (“Limitation of liability of Trustee and limited recourse”), if, as a result of a Changed Costs Event, the Liquidity Facility Provider determines that:

- (a) there is any direct or indirect change in the cost to the Liquidity Facility Provider of providing, agreeing to provide, maintaining its commitment to provide, funding or maintaining financial accommodation under this document or otherwise being a party to or performing its obligations under this document;
- (b) there is any direct or indirect change in any amount received or receivable by the Liquidity Facility Provider in the effective return to the Liquidity Facility Provider in connection with financial accommodation provided or to be provided under this document (including, without limitation, the return on the Liquidity Facility Provider’s overall capital which could have been achieved but for the occurrence of the Changed Costs Event); or
- (c) the Liquidity Facility Provider is required to make a payment or to forgo interest or other return on or calculated by reference to an amount received or receivable under this document,

then the Trustee must on the direction of the Trust Manager pay (if applicable) to the Liquidity Facility Provider on the next Payment Date (to the extent available under clause 5 (“Cashflow Allocation Methodology”) of the Issue Supplement) the additional amount which the Liquidity Facility Provider certifies is necessary to compensate the Liquidity Facility Provider for the changed cost, reduction, payment or forgone interest or other return.

12.2 Indirect cost

If the changed cost, reduction, payment or forgone interest or other return is indirect, the Trustee (if applicable) agrees to pay the Liquidity Facility Provider the proportion of it which the Liquidity Facility Provider determines to be fairly attributable to the financial accommodation made available under this document.

12.3 Certificate

The Liquidity Facility Provider must provide a certificate to the Trust Manager setting out details of the relevant Changed Costs Event and the calculations made by the Liquidity Facility Provider to determine the new amount payable under clause 12.1 (“Determination”). Any such certificate signed by the Liquidity Facility Provider as to an amount payable by the Trustee under this clause 12 (“Changed costs event”) is conclusive evidence of the amount stated in it in the absence of manifest error. In determining additional amounts payable under this clause 12 (“Changed costs event”), the Liquidity Facility Provider may use averaging and attribution methods commonly used by financiers or any other reasonable averaging or attribution method.

12.4 Minimisation

If the Liquidity Facility Provider is to receive any additional payment under clause 12.1 (“Determination”), the Liquidity Facility Provider must use its reasonable endeavours to (at the expense of the Trust), and to the extent it can do so lawfully and without material prejudice to its own position, make the relevant advances or financial accommodation available by some alternative means (including, without limitation, changing its lending office or making the advances

or financial accommodation available through a Related Entity of the Liquidity Facility Provider) which would avoid the necessity for the additional payment or reduce the amount of it. Nothing in this clause 12.4 (“Minimisation”) affects the obligations of the Trustee under clauses 12.1 (“Determination”) and 12.2 (“Indirect cost”).

13 Illegality

If as a result of any change in a law, regulation, code of practice or an official directive which has the force of law or compliance with which is in accordance with the practice of responsible bankers in the jurisdiction concerned, or in their interpretation or administration after the date of this document, the Liquidity Facility Provider determines that it is or has become apparent that it will become contrary to that law, regulation, code of practice or official directive, impossible or illegal for the Liquidity Facility Provider to fund, provide or maintain financial accommodation or otherwise observe its obligations under this document then the Trustee, on the immediately following Payment Date, must, to the extent that there are funds available under clause 5 (“Cashflow Allocation Methodology”) of the Issue Supplement to do so, prepay so much of the Liquidity Principal Outstanding as the Liquidity Facility Provider specifies to the Trustee in writing together with accrued interest and other amounts payable by the Trustee under this document. The Liquidity Facility Provider’s obligations to the Trustee under this document terminate on the giving of the notice.

If, on any Payment Date, all amounts due in accordance with this clause 13 are not paid or repaid in full, on each following Payment Date the Trustee will pay or repay so much of the amounts as there are funds available for that purpose on that Payment Date in accordance with the Issue Supplement until such amounts are paid or repaid in full.

14 Payments

- (a) Despite any other provision of a Transaction Document, each party agrees to make payments (including by way of reimbursement):
- (i) on the due date (or, if that is not a Business Day, on the next Business Day); and
 - (ii) not later than 12:00 noon in the place for payment; and
 - (iii) in Australian dollars in immediately available funds; and
 - (iv) in full without set-off or counterclaim, and without any withholding or deduction in respect of Taxes, unless such withholding or deduction is made under or in connection with, or in order to ensure compliance with FATCA or is required by law.

If a party directs the other party to pay a particular party or in a particular manner, the payer is taken to have satisfied its obligation to the payee by paying in accordance with the direction.

- (b) If a law (including FATCA) requires a party to withhold or deduct an amount in respect of Taxes (including, without limitation, FATCA Withholding Tax) from a payment under this document such that the recipient would not actually receive on the due date the full amount provided for under this document, then the party required to make the payment agrees to:
- (i) withhold or deduct that amount; and

- (ii) pay the amount withheld or deducted to the relevant authority in accordance with applicable law.

The party required to make the payment is not obliged to pay an amount to the recipient so as to result in it receiving a total amount equal to the amount it would have received but for the withholding or deduction (including, without limitation, any FATCA Withholding Tax).

Time is of the essence of this document in respect of an obligation of the Trustee to pay money.

20.9 Further assurances

At the Liquidity Facility Provider's request and, at the direction of the Trust Manager, and the Trust Manager agrees to give such direction, the Trustee must:

- (a) execute and use its best endeavours to cause its successors to execute documents and do everything else necessary or appropriate to bind the Trustee and its successors under this document; and
- (b) use its best endeavours to cause relevant third parties to do likewise to bind every person intended to be bound under this document.

22.5 Notice

If the Liquidity Facility Provider receives written notice of any act, matter or thing which may give rise to a liability, loss, cost, charge or expense in relation to which the Trustee would be required to indemnify it under clauses 22.1 (“Costs”), 22.2 (“Defaults etc”) or 22.3 (“Employees”), the Liquidity Facility Provider will notify the Trustee of that act, matter or thing giving such details as it is practicable to give as soon as it is reasonably practicable and in any event within 5 Business Days of receiving written notice of such act, matter or thing, provided that failure to do so will not affect or result in any loss of or reduction in the indemnity contained in clauses 22.1 (“Costs”), 22.2 (“Defaults etc”) or 22.3 (“Employees”).

22.6 Losses on Liquidation or Re-Employment of Deposits

Any loss, cost or expense referred to in clause 22.2 (“Defaults etc”) will include the amount determined in good faith by the Liquidity Facility Provider as being any loss (other than an amount for loss of profit other than loss of margin) including loss of margin, cost, or expense incurred by reason of the liquidation or re-employment of deposits or other funds acquired or contracted for the Liquidity
